THE BOLD LOOK  
OF **KOHLER**<sup>®</sup>

# Flipside®

# Turning showering on its head.

**With Flipstream® Technology**  
Four unique sprays, one flip action

## **The new way to shower**

When was the last time you played in the shower? Whether you've got five minutes to shower or twenty-five, Flipside handshower or showerhead gives you four fun ways to massage your body, lift your spirits, ease your worries or just get clean. No matter what your mood, Flipside delivers a spray to match it. Simply turn its pivoting head and Flipstream technology brings a custom, spa-like experience to the comfort of your own home.

## **Four ways to play**

Experience life on the Flipside with four shower sprays: Koverage®, Kotton®, Komotion® and Kurrent®. Let it rain with Koverage for a traditional, soothing, everyday shower. In need of an easy touch? Kotton streams a uniquely dense, soft, enveloping downpour of relaxation. Looking for the perfect transition from a tightly wound day? Komotion massages in an exhilarating, circular pattern for a deep sense of well-being. Working up a sweat? Kurrent is all business: an invigorating massage spray for tired muscles, aches and pains.

## **Easy, reliable, fun**

With innovative Flipstream Technology, Flipside dedicates a single sprayhead surface to each unique spray. You experience full water pressure in each spray—it's like having four separate sprays in a single shower. Changing sprays is as easy as turning the head on its axis, and each spray angle fully adjusts for the differing heights of multiple users. It's fun for kids from five to ninety-five and easy enough for people with mobility limitations to use.

4

**Kurrent® Spray**

offers a targeted massage to ease away aches and pains.

3

**Komotion® Spray**

delivers a soothing, circular water pattern.

1
