

Intelligent Toilets and Cleansing Seats

THE BOLD LOOK
OF **KOHLER**®

Once in a great while,
something new comes along
that makes you wonder how
you ever lived without it.

Get ready to wonder again.

Intelligent Toilets and Cleansing Seats

It's easy to take your toilet for granted, but we think toilets play an important role in your bathroom. A better toilet provides a better clean, a cleaner kind of clean. Intelligent toilets and cleansing seats feature next generation technology. So when you are considering creating a spa-like bathroom, consider a toilet that can live up to those expectations, with products that are designed to create a relaxing and comfortable toilet experience. So cleansing, so comforting, you'll wonder how you lived without one.

The modern design trend is gravitating toward a seamless approach to technology. KOHLER® intelligent toilets epitomize this approach with clean lines and leading-edge designs that make a stunning statement in any bathroom. They can be found in world-class buildings the world over, but they're equally at home in your own bathroom. Every intelligent toilet provides a full suite of unrivaled features and amenities designed to keep you comfortable and clean so that you feel confident and self-assured.

INTELLIGENT TOILETS

THE BOLD LOOK
OF **KOHLER**®

Sleek and smart, a cleansing seat will elevate your daily routine. It's an instant upgrade to any toilet with customizable amenities you might experience at a spa or luxury hotel, including warm-water cleansing, heated seat, nightlight and much more. KOHLER® cleansing seats are designed to fit most toilets, and our signature designs complement a range of decors.

CLEANSING SEATS

KOHLER® intelligent toilets and cleansing seats feature water cleansing as a refreshing alternative to toilet tissue alone. They give you complete control over the entire experience with intuitive controls. And they will leave you feeling confident, assured and cleaner than clean.

Self-Cleaning Wand

Upon sitting down on any KOHLER intelligent toilet or cleansing seat, the cleansing wand rinses itself before use and again following use. In addition, some models feature a stainless steel wand that is automatically cleaned with UV light every 24-hours for hygienic assurance.

Warm-Water Cleansing

Front and rear warm-water cleansing is a refreshing alternative to toilet tissue alone and will leave you feeling a cleaner kind of clean.

Adjustable Temperature, Pressure and Position

Personalize your entire experience by easily adjusting the water temperature, pressure and spray position with intuitive controls.

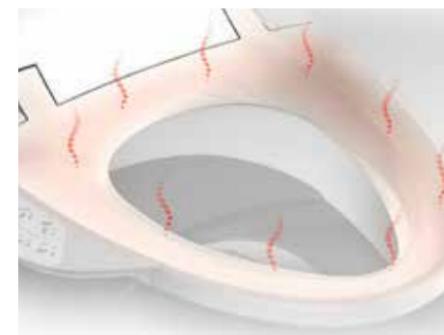

C³-155 cleansing toilet seat

KOHLER® intelligent toilets and cleansing seats feature heated seats and warm-air dryers for unrivaled comfort and nightlights for convenience and peace of mind.

Nightlight

A built-in light sensor automatically turns the nightlight on in dim light. It will help guide you to the toilet without having to turn on your overhead lights and disturb your nighttime vision or someone sleeping in the next room.

Heated Seat

Kohler's ergonomically designed seats are heated with several temperatures that can be adjusted for optimal comfort.

Warm-Air Dryer

The warm-air dryer can be adjusted to personalize your experience. Custom settings assist in the drying process to provide you with comfort and assurance.

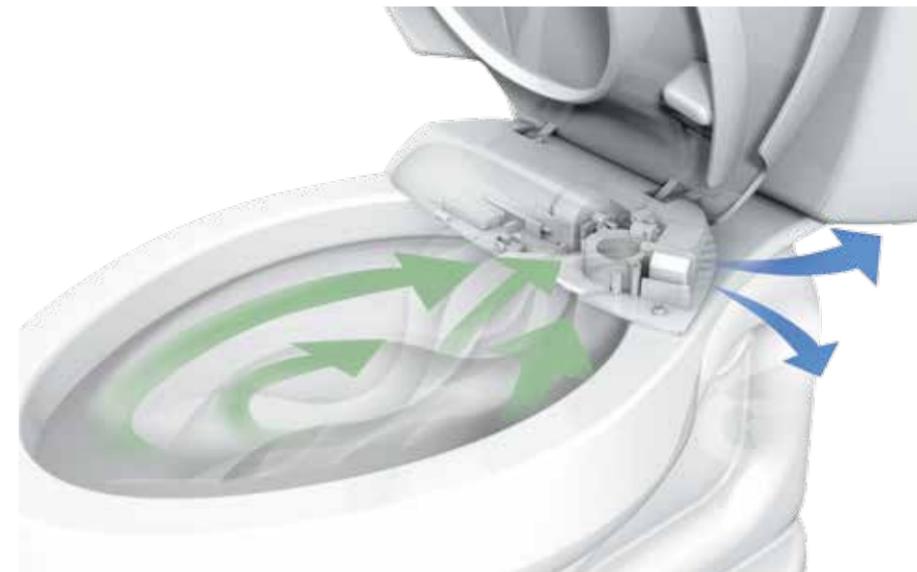

C³®-230 cleansing toilet seat

KOHLER® intelligent toilets feature hands-free operations. Both intelligent toilets and cleansing seats offer automatic deodorization for a fresh bathroom.

Hands-Free Lid and Flush

The motion-activated lid on our intelligent toilets senses your presence and automatically raises for you. Once you're done, the toilet automatically flushes itself. The hands-free operation is cleaner because there are fewer germs to pick up or leave behind.

Deodorizing Seat

Upon sitting down, a fan is activated, which pulls air from the toilet bowl through a carbon filter to remove odors and help keeps your bathroom fresh.

Karing® intelligent toilet

Whether you're looking for a gentle cleansing for specific health issues or you're looking for a cleaner alternative to toilet tissue alone, KOHLER® intelligent toilets and cleansing seats let you choose and control your experience with convenient presets and intuitive controls.

Touch-Screen Remote

The intuitive touch-screen remote can be mounted to the wall, and it works like a smartphone, allowing you to program and control your personal settings with a simple touch.

Personalized Presets

With some intelligent toilets and cleansing seats, you can program the user presets for water pressure, temperature and more, so they will be ready for future use.

Every inch of space was considered to create a compact, streamlined and modern form that doesn't compromise functionality. The result is Numi®, Kohler's most advanced toilet.

Ambient Lighting
Seven colors with three programming options illuminate your space.

Motion-Activated Lid and Seat
Front sensors react to your movement when you enter the room for hands-free opening and closing of the lid. Motion at the floor level engages sensors to raise and lower the seat.

Play Your Music
Wirelessly stream music from your smart device to amp yourself up during your morning routine or unwind from the grind at the end of the day.

Foot Warmer
Warm air from floor-level vents heats the floor surface and warms your feet.

Magnetic Docking Station
The magnetic docking station conveniently charges and stores the touch-screen remote.

Numi® intelligent toilet

From our patented flush engine to our hands-free lid to the clean lines of our toilet designs, KOHLER® intelligent toilets and cleansing seats will leave you feeling a cleaner kind of clean.
