## honed

To encounter the Rêve<sup>™</sup> Ensemble in Honed White is to be drawn along the length of a clean, crisp line and into discovery. It is to become immersed in the subtle nuances of tone and texture in your home and to feel at ease among them, more like yourself. The Rêve Ensemble in Honed White reveals the full extent of its unique character over time, like smooth weathered stone. The water-saving Dual Flush toilet, vanities and an array of lavatories deliver modern functionality, simplicity and warmth. Honed white is also available on other KOHLER<sub>®</sub> vitreous products.

### Dream and Nuance The RÊVE<sub>TM</sub> ENSEMBLE in HONED WHITE

#### Organic Flourish The STRELA™ ENSEMBLE in HONED WHITE

Natural embellishments – soft ridges and shallow grooves – resonate throughout the Strela Ensemble. Elemental appeal balances against polished formalism in the elliptical lavatory and vanity, and thoughtfully designed doors open with a touch to reveal space-saving shelves. The water-conserving Dual Flush toilet features a skirted trapway as well as an optional Avantis™ solid wood seat that pairs beautifully with the Paritym bath's unique design and optional coordinating seat. The Strela Ensemble expresses an honest, essential elegance.

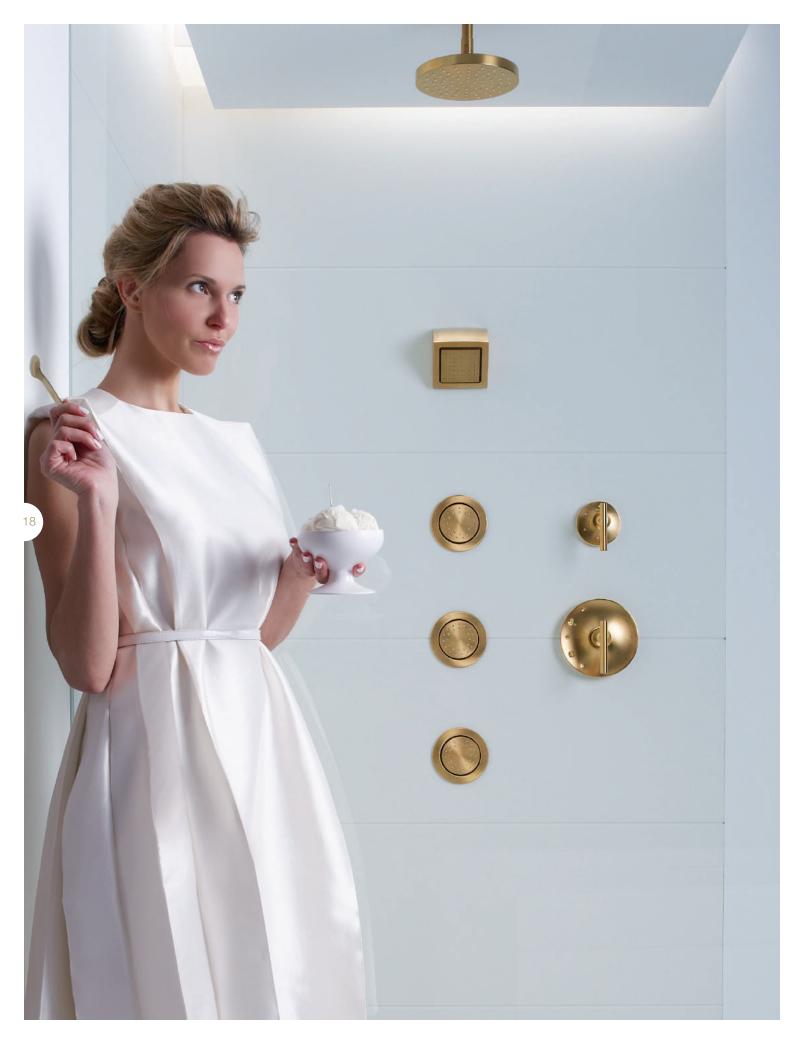

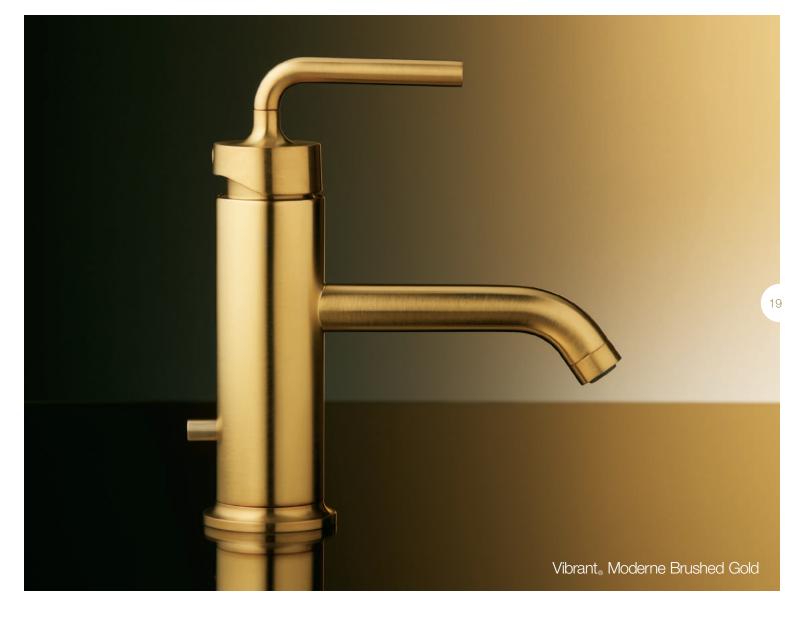

#### INTRODUCING PRESTIGE & INTRODUCING Vibrasting Constant And Constant Moderne Polished Gold Finishes

Conveying a sense of prestige and leadership, gold is the universal standard of excellence for which we all strive. We've approached the undeniable, romantic allure of gold in an entirely new way. The results are two new, trendsetting Vibrant PVD faucet finishes. Charismatic, bright and vocal, the new Vibrant Moderne Polished Gold faucet finish offers undeniable relevance. Contemplative and complex by nature, the new Vibrant Moderne Brushed Gold inspires thoughtful reflection.

## Functional ART Decorative Bathroom Lavatories

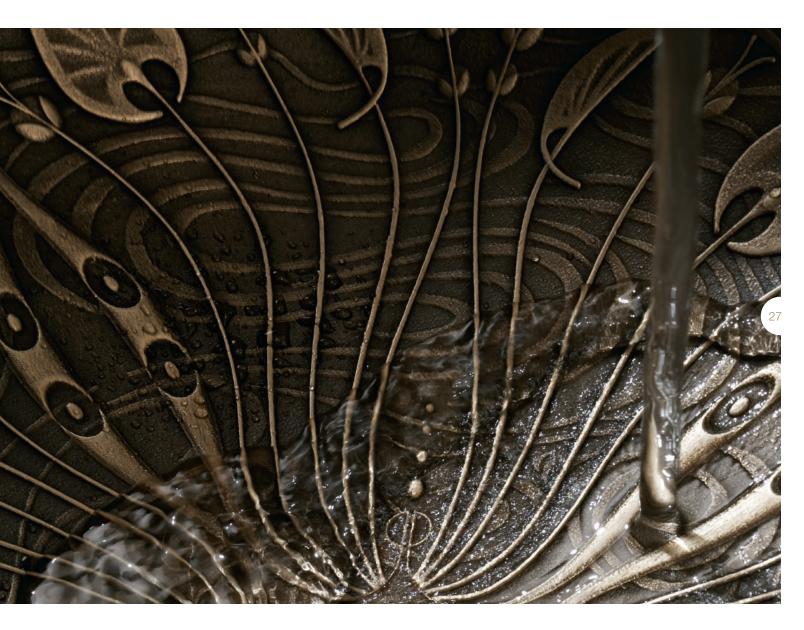

Take the pure nature of glass, the evolving character of a living finish or the detailed subtleties of painted and textured patterns; add innovative engineering and exquisite craftsmanship; and discover the unparalleled artistry of KOHLER® Nature's Chemistry™ bathroom lavatories. Each piece expresses a unique vision and becomes the undisputed centerpiece of its environment. Decorative lavatories personalize any setting with functional art that meets your needs and captures your imagination.

**FIDSICE** With Flipstream. Technology Four unique sprays, one flip action

If you haven't flipped yet, you definitely will when you experience the new Flipside™ handshower. There's nothing quite like it. To imagine it, you have to think big, revolutionary - like hula hoop or time travel. The Flipside handshower brings you four entirely distinct showering sensations, each with its own dedicated sprayface on your choice of three unique

models. And Flipstream technology makes it so simple to use. Just flip the sprayhead on its axis - no impossible twisting or soapy gripping - to enjoy the spray that best suits your needs. Switch between the full-face, perfect-for-everyday performance of Koverage for your own shower and the softer, silkier spray of Kotton to rinse your child's hair and face.

Komotion drenches you fully and gently while Kurrent delivers a targeted spray to revitalize your muscles. And with three style options, there's a design for every bathroom and a spray sensation for every mood, every body. So go ahead, flip a little.

#### What's Your COLOR? Karbon, Kitchen Faucets – Now in Color

Modern. Versatile. Innovative. And now the Karbon kitchen faucet collection is available in striking new color and finish combinations from gold to bronze to black and stainless, marrying trendsetting fashion with the latest in faucet engineering and design. Ideal for the home chef, the Karbon faucet pivots easily into any position you choose – raised high to fill a tall pot or lowered close to the drain to minimize splashing – and remains there for hands-free operation until you choose another position. Delivering the unexpected, both in terms of functionality and style, the Karbon kitchen faucet collection leads the way in evolving the efficiency and design palette of today's kitchens.

### New.Life.Form.Karbon.

The Karbon faucet offers total range of motion, putting water exactly where you want it. Its blend of brass and incredibly durable yet lightweight carbon fiber is sure to redefine what is possible in the kitchen.

KOHLER

A Fresh Look KOHLER® Cast Iron Kitchen Sinks

If you haven't considered KOHLER<sub>®</sub> Cast Iron lately, it's time to take another look. As color becomes more and more relevant in today's kitchens, KOHLER Cast Iron provides the ultimate solution with over 20 gorgeous, high-gloss color options. While it's true that cast iron has long been a familiar face in the kitchen – a testament to its guaranteed durability, today's KOHLER Cast Iron is decidedly contemporary. The smart designs of the Indio<sub>m</sub> offset double-basin kitchen sink with integral faucet deck and the Iron/Occasions<sub>m</sub> island sink with its seamless one-piece surface and integrated basin feature innovative functionality and versatile style. And because KOHLER Cast Iron is 93% recycled and reclaimed material, you can feel good about its sustainability.

# Craftsmanship in the Kitchen ARTIST EDITIONS Kitchen Sinks

46

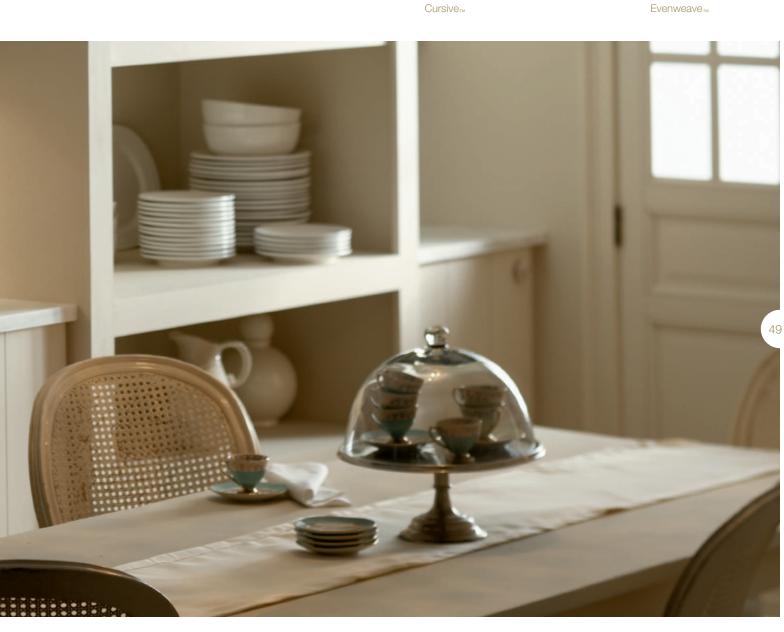

Creativity has always been at the heart of the kitchen, inspiring the professional and the home chef alike to experiment with spices and seasonings, to imagine new aromas and textures. Today's kitchens reflect and sustain such artistry in their every detail. The new Artist Editions Cursivem and Evenweavem designs on the Alcottm apron-front sink bring an understated elegance to the entire kitchen. Subtle yet distinctive, these versatile, patterned sinks provide the key ingredient to creating a beautiful kitchen.

From Prepping to Plating STAGES™ Kitchen Sinks

50

Designed in consultation with executive chefs from Kohler's own Five Diamond resort hotel, The American Club<sub>®</sub>, the Stages kitchen sink from the Chef-Inspired Collection can make an organized home chef out of anyone. Drawing on the *mise en place* or "everything in place" method of cooking, the sink features a selection of accessories to accompany each stage of the cooking process. The ample basin and wet work surface are perfect for rinsing and drying vegetables or shellfish. Ingredients can be chopped and sliced on the equally beautiful and functional wooden cutting board that slides along a recessed lip and allows you to scrape trimmings right into the sink. A sliding tray holds your utensils conveniently nearby or can be flipped to double as a second cutting board. And an additional, larger tray accommodates six stackable bowls that may be used to hold raw ingredients or to present the final product.

Even cleaning up is made simple by the Stages<sub>TW</sub> kitchen sink with its angled basin bottom, directing water and waste right to the drain, along with the accompanying bottom rack that keeps glassware upright and protected. For the home chef who dreams of having a sous chef, the new 33" or 45" Stages kitchen sink is the next best thing.
